

STRATUS

NEXT - LEVEL ASSET INSIGHT

A REAL TIME COMMON OPERATIONAL VIEW OF ALL FOREST ACTIVITIES FOR TEAMS OF ANY SIZE

Is gathering up maps and data for planning annual treatments and budgets disruptive and time consuming? Is there the feeling that your planning processes are missing important details and are reactive instead of proactive?

Gain a proactive edge and put your operations ahead of growing business information demands. Leverage technologies built on today's standards for usability, design and security.

Deliver the answers teams need with the ability to quantify the entire forest asset value chain in real time – from past work, annual plan comparisons, revenue and expense estimation to work approval.

- SEE YOUR PLAN FROM ANYWHERE - NO SOFTWARE TO INSTALL
- DESIGNED TO GIVE YOU COMPLETE CONTROL OVER THE DATA YOU TRACK
- INTEGRATED WITH ArcGIS, PRISM AND OP TRACKER
- CONTROL OVER PORTFOLIO OR OPERATING AREAS ACCESS
- SUPPORTED BY A TEAM OF DESIGNERS AND ENGINEERS
- IDEAL FOR ORGANIZATIONS RUNNING WITH NO INTERNAL GIS OR IT RESOURCES
- CHOOSE THE MODULES WHICH FIT YOUR NEEDS
- ALWAYS UP AND RUNNING, ALWAYS UP TO DATE AND ALWAYS GETTING BETTER
